<b>Week 3</b> Endurance (Desired level)	Abs Upper Body Lower Body		Abs Upper Body Lower Body				
Resistance					Abs Upper Body Lower Body		
<b>Active Recovery</b>	Upper Body Lower Body	Upper Body Lower Body	Upper Body Lower Body	Upper Body Lower Body	Upper Body Lower Body	Upper Body Lower Body	Upper Body Lower Body

## Muscles to target for Strength Training/Active Recovery

**Upper Body:** Upper and Lower Back, Abs, Triceps, Biceps and Traps

**Lower Body:** Quads, Hamstrings, and Calves

- Strength training 3x a week
- Start with the Endurance Program week 1
- Use the Resistance Program week 2
- Alternate the Endurance and Resistance programs thereafter
- Increase level and intensity at your desired rate
- Active Recovery should be used after every workout – particularly after a very strenuous activity when muscles are ready to cramp.

**The Endurance program targets slow twitch fibers (type 1)**

**The Resistance program targets both slow and fast twitch fibers (type 1 & 2)**

Upper / lower back

Abs

Triceps / Biceps

Quads

Hamstrings

Calves

Traps
